Online News 24/22

Dear Parents

Wow, do they weeks fly by so fast. We just don't keep up! I almost think that time flies...and says 'goodbye' as life zooms down the highway of eternity. Our thought for the week follows: ***Life's Warning Signals***

An airplane pilot returned his flight full of passengers to the airport terminal because he had heard a sound that made him uncomfortable coming from the engine. The passengers weren't delayed very long, and when they taxied a second time for take-off, one nervous woman asked if the problem had been solved. The flight attendant smiled as she looked the woman in the eye and said, "Yes, it has. We changed pilots."

Oh No! Ignoring the warning signals can be dangerous—and even deadly. When the Titanic sank, it had been steaming full speed ahead. Several iceberg warnings had been issued, but the crew had completely ignored the danger signals. People were dining, couples were dancing, children were sleeping, and the bands were playing on board. No one had any idea they were headed toward disaster.

When the ship actually began to sink, the band began playing an old hymn, "Nearer My God to Thee." But it was too late. Hundreds of people had already died and many more awaited drowning. God doesn't want his children to walk into danger. In fact, he goes to great lengths to warn us against it. He uses two mighty alarms in our lives to warn us that we're walking the wrong way.

Alarm #1: His Holy Word. By taking the Bible seriously and studying the mistakes, trials, victories, and failures of those who have come and gone before us, God teaches us what to avoid. If you'll make reading the Bible a priority in your life, God will make it a priority to speak to you through its words.

Alarm #2: His Holy Spirit. The Holy Spirit works through our minds and our hearts to lead us in the right direction. Perhaps there have been times you've started to do something but felt "a warning." That's the work of the Holy Spirit! Or perhaps you did something you shouldn't have, and your conscience started to bother you. That's the Holy Spirit. By heeding God's warnings, you can save yourself a lot of grief. By ignoring his danger signals, you'll eventually experience disaster.

God doesn't want you simply to walk through life ignoring problems; he wants you to experience life abundantly! He wants to fill your days with meaning, purpose, and contentment. To experience life to the fullest, however, we must learn to pay attention to his warnings.

Assembly Recognition

This past week a number of medals and certificates were handed out in recognition of excellence by our learners, both in the Eisteddfod's and in the sporting arenas.

Frances Vorweg takes part in the Alberton Eisteddfod as well as the Hamlet Eisteddfod. Our learners have excelled at both these venues and we are proud of the diplomas and certificates each one has brought home.

Cross Country

Once again our athletes took honours and medals at the East Rand event. Well done to you learners and a huge thanks to Ms Felix for the coaching, driving and fitness campaign to get our athletes over the line.

A special mention to Inge Bierman who was chosen to represent Gauteng at the National Championships in September – to be held in East London. We wish you all the best!

CP Soccer and Sport

The school continues to grow in its soccer output as both able-bodied and CP Soccer continues to allow our learners the opportunity to participate and enjoy the sport. Thank you to Ms Potgieter for arranging the sport fixtures (last week against Randeor) that our boys enjoy so much

Arbour Day

The school held a tree planting ceremony this past Tuesday, where all learners and staff were present to celebrate the occasion.

A total of 10 Karee trees were planted down the side of the soccer field. These trees will grow strong and produce a wonderful cover for the area and will enhance the side of the field immeasurably.

School Assessments

We remind parents that the Senior Phase will start with assessments from next week and that the rest of the Phases will continue with class and work assessments. Please encourage your children to prepare and work hard as the end of the term will soon be upon us and the time for assessment submission also draws near.

Contact the School

The school has an open-door policy to meet, greet and communicate with parents and enquirers. Please don't hesitate to make an appointment to visit the school to meet with the child's teacher or the school management. We would love to hear from you....especially if it's something positive.

Bus Interruption

Phumlani's bus will not be on the circuit next Monday (10 Sept 2022) but will run from Tuesday to Friday.

We trust you will have a wonderful weekend.

Mark Lynch
